## 500 kW Containerised Boiler

The All Seasons Hire containerised boiler system provides a fast efficient solution to a wide range of applications that require hot water. The boiler is housed in vandal proof sound and thermally insulated steel container, finished in discrete silver grey delivering up to 600 kW per unit from oil fired burners.

The All Seasons Hire containerised boilers are equipped with lifting lugs positive fork-lift truck pockets and adjustable levelling feet, for ease of on site locations, with fast coupling technology on all essential connections ensuring fast trouble free installation.

The containerised boilers are used in conjunction with our comprehensive range of thermostatically controlled fan coils or air handling units, we supply flexible warm air delivery solutions for many varied applications and locations, including offices, marquees, factories, public buildings etc.
