

PRESS RELEASE

All Seasons Hire Introduces its latest Range of Containerised Portable Boilers

All Seasons Hire has just taken delivery of their latest Portable Packaged Boiler Rooms. Four 250kW Portable Boilers were delivered to the company in January 2009. This is the first batch of several newly designed Containerised Portable Boilers that are due for delivery between January and March 2009. The first delivery of the 2009 Portable Boilers are capable of delivering 250kW of Heating and Hot Water duty; they are fully self contained and designed to the highest standard using quality parts and components. The Boiler is manufactured by Ferroli, the Pumps are Gundfoss, Heat Exchangers are Alpha Laval, controls and electrical components are Siemens; all other components are also manufactured to a high specification. The Portable Boiler Room is designed for easy installation and maintenance; it is fully compliant to UK quality standards and can be run on Diesel Oil or Natural Gas.

Commercial Director for All Seasons Hire Andy Hamilton stated "We have been developing our Boiler and Chiller Hire business throughout 2008; our Hire Fleet of both Boilers and Chillers is now significant. However demand for high quality fuel efficient Portable Boilers is growing. We currently have 100% utilisation of our Portable Boiler Hire Fleet which includes 100kW, 200kW, 250kW and 550kW Boilers.

Our 550kW Boilers come in fully mobile towable versions or fully Portable Containerised Plant Rooms. Following this latest delivery of the 250kW units, we will be receiving four more 500kW Packed Boilers; these will also be built to our own design using Ferroli Boilers and the same high quality components used in the 250kW model". The Portable Boilers currently on hire from All Seasons Hire are delivering Hot Water and Heating to a wide range of projects including several Hospital Refurbishments, a University Refurbishment, Royal Navy Facility Refurbishment, a Retirement Home and several Under Floor Heating projects.

All Seasons Hire has a large and comprehensive Boiler Hire Fleet ranging from 22kW three Phase Electric, to 550kW Oil or Natural Gas. Their other Hire products also includes 14000 BTU to 35000 BTU Portable Air Conditioning units, Portable Chiller Units ranging from 50kW to 550kW, Portable Space Heaters from 20 to 200kW, Dehumidifiers and Commercial Refrigeration
