

PRESS RELEASE

Chilled Display Hired by All Seasons Hire to Nightclub

A nightclub in Reading held a champagne reception at a weekend party, for which they needed extra chilled storage.

Three Chilled Display Commercial Refrigeration Units were recently Hired to a nightclub in Reading by All Seasons Hire. The Upright Chillers were supplied to store and display champagne for a party in the nightclub, supplementing the existing Refrigeration Units. The Commercial Refrigeration Units selected for this application were the FS1380 Glass Door Merchandiser. These Chilled Display Units are 6 foot tall with a full length glass panel door, enabling full display of the products inside. The FS1380 Refrigeration Units also feature adjustable shelving making them a very versatile Chilled Display Unit that can be used for many applications. In this case the Chilled Display Units were only Hired for a weekend event, with All Seasons Hire able to deliver the Refrigeration Units a week in advance. This enabled the nightclub to have somewhere to store the large order of champagne when it arrived in advance of the Event.

All Seasons Hire offers a wide range of Commercial Refrigeration products for Hire, Lease and Sale. Products available include Chilled Display, Frozen Display, Catering and Restaurant Display, Ice Cream Display, Chilled Storage, Frozen Storage, Cold Rooms and Ice Machines.

All seasons Hire also provides Air Conditioning, Portable Chillers, Portable Boilers and Heating Solutions for all types of business environments including small medium and large Events and Exhibitions, Server Room Air Conditioning, Disaster Recovery and any environment requiring Temporary Air Conditioning, Heating or Drying
