

PRESS RELEASE

Process Chilling for Chemical Manufacture

A Chiller Unit has been supplied to a chemical manufacturer in Poland to add extra cooling duty to their process plant.

When a leading chemical manufacturer ran into Process Cooling issues at one of its gas production plants in Poland they knew they needed additional Cooling Duty. Having previously dealt with All Seasons Hire in the UK they returned for help on this new Process Cooling project. The need for the additional Cooling Duty arose when the plant increased production of gas, putting too much strain on the existing Cooling System. All Seasons Hire was able to deliver and install a 160Kw MTA Process Chiller directly to site covering the Cooling Duty shortfall over a 4 month period, whilst production

All Seasons Hire has a wide range of Portable Chillers ranging from 10kW to 550kW. The mix of Chillers available for Hire gives All Seasons Hire the flexibility to provide Temporary and Fixed Cooling Solutions of all types including Portable Air Conditioning, Portable Process Cooling, Low Temperature Applications. The company also supplies Portable Boilers ranging from 22kW three phase electric to 550kW Oil Fired or Natural Gas Fired

All seasons Hire provides Air Conditioning, Portable Chillers, Portable Boilers, Commercial Refrigeration and Heating Solutions for all types of business environments including small medium and large Events and Exhibitions, Server Room Air Conditioning, Disaster Recovery and any environment requiring Temporary Air Conditioning, Heating or Drying
