

PRESS RELEASE

Portable Air Conditioning for Graduation Days:

Students are currently preparing to celebrate their hard work with all the pomp and ceremony that goes with annual graduation days.

All Seasons Hire is currently working with several Colleges, Universities and Event Organisers installing Portable Air Conditioning at Town Halls, Temporary Marquees and University facilities. The majority of the Temporary Air Conditioning solutions are being delivered using large Portable Chillers and Air Handling Units. All Seasons Hire Commercial Director Andy Hamilton stated that "these events are very special and every attention to detail is necessary to ensure that the installations are completed on time and with perfect presentation. The air handling units need to be discrete efficient and quiet, allowing the proud parents to video the event without too much background noise. We often get emergency calls that require a very fast response; however these jobs are planned well in advance especially where marquees need to be erected. We often work hand in hand with marquee installation companies ensuring that the whole project is completed in line with the organiser's plans. All Seasons Hire prides itself for reacting fast, delivering the best and most efficient Portable Air Conditioning and Heating Solutions for all types of business environment" For full detail of other services and products available from All Seasons Hire go to www.allseasonshire.eu or for a discussion about future projects call us on 0800 082 8001
